

OPTIONAL ACCESSORIES

Cables

- Interconnect/power cables: #2 AWG wire. Available in 8" and 15" lengths, with battery terminals and/or ring terminals.
 - PBA-15/NBRT: #2 AWG 15" cable with negative battery clamp & ring terminal
 - PBA-15/PBRT: #2 AWG 15" cable with positive battery clamp & ring terminal
 - PBA-15/PNB: #2 AWG 15" cable with positive & negative battery clamps
 - PBA-15/RTRT: #2 AWG 15" cable with two ring terminals
 - PBA-8/NBRT: #2 AWG 8" cable with negative battery clamp & ring terminal
 - PBA-8/PBRT: #2 AWG 8" cable with positive battery clamp & ring terminal
 - PBA-8/PNB: #2 AWG 8" cable with positive & negative battery clamps
 - PBA-8/RTRT: #2 AWG 8" cable with two ring terminals

Buss Bars

- Additional aluminum buss bars available for linking multiple PBM modules. Ideal for use when higher voltages are required in a single module format.
 - PBA-BB: one buss bar

Side Panels

- Metal side panels: includes integral flanges for secure mounting of assembled module, fits PBM modules with BCAP3000 cells. Kit includes two side panels and hardware required for attachment to assembled module.
 - PBA-SP1: two side panels with mounting screws

Joint Plates

- Joint plates: aluminum joint plates are available to provide increased structural support when connecting adjoining side panels. All joint plates are sold in pairs and include hardware for easy attachment.
 - PBA-JP1: two joint plates with mounting screws

Battery Posts

- Aluminum battery posts for quick and convenient connection of Tecate PowerBurst modules.
 - PBA-BP: one positive battery post and one negative battery post
