

Tecate Group Shipping Policy for Ultracapacitors and Ultracapacitor Modules per UN3499, 65th Edition of the IATA DG manual, 2024.

Tecate Group ultracapacitors and ultracapacitor modules are not classed as Dangerous Goods. Based on UN3499, 65th Edition of the IATA DG manual, effective January 1, 2024.

All ultracapacitor cells sold by Tecate Group are less than 10Wh capacity and modules greater than 10Wh which contain these cells are shorted per UN3499 special provision A186 (and US 49 CFR§172.102 special provision 361).

By meeting these requirements, all Tecate Group ultracapacitors and modules may be transported without DG/HZM restrictions, as detailed by these regulations.

Dated: January 3, 2024
