

**Tecate Group Shipping Policy for
Ultracapacitors
and Ultracapacitor Modules per
UN3499, 61st Edition of the IATA DG manual, 2020.**

Tecate Group ultracapacitors and ultracapacitor modules are not classed as Dangerous Goods. Based on UN3499, 61st Edition of the IATA DG manual, effective January 1, 2020, all ultracapacitor cells and modules presently sold by Tecate Group are less than 10Wh capacity, comply with UN3499 regulations (including Special Provision 361 and 186) and meet all the requirements when transported as individual capacitors or modules.

Ultracapacitors with an energy storage capacity of 0.3Wh or less are not regulated and, therefore, are exempt from DG/HZM shipping regulations when transported as individual capacitors or modules. **By meeting these requirements, all Tecate Group ultracapacitors and modules may be transported without DG/HZM restrictions, as detailed by these regulations.**
